FROM: Jim Pia, Assistant City Manager

SUBJECT: Proposed Capital Improvement Program Budget (Fiscal Years 2024/25-2029/30)

I am pleased to present the Proposed Fiscal Year (FY) 2024/25 - 2029/30 Six-Year Capital Improvement Program (CIP) for the City of Salinas. The CIP details the capital investments required by the community to maintain the City's infrastructure, consistent with City Council's Core Goals of Economic Development, Housing/Affordable Housing, Infrastructure, Environmental Sustainability, Public Safety, and Youth and Seniors. Given the significant costs associated with capital investments, the CIP is a multi-year document, updated annually. Although this year's investment for FY 2024/25 is proposed at \$18.2 million, there are significant, ongoing CIP projects previously approved, including projects under the American Rescue Plan Act (ARPA), that continue to move forward. Some of the larger investments in this year's allocation include streets and sidewalks totaling \$7.0 million, \$2.6 million on homeless, and an additional \$1.0 million for Boronda Road Congestion Relief.

Guided by the City Council Strategic Plan with Goals and Objectives for 2022-2025, community outreach, and the General Plan, this CIP continues targeted investments to maintain and rehabilitate a wide array of public infrastructure to improve system reliability, enhance recreational experiences, advance public safety, and, in general, ensure Salinas remains well positioned for economic growth and opportunity.

The City of Salinas defines a capital asset as having: 1) a desired minimum dollar amount of \$10,000; and 2) an estimated useful life of five years or more. Capital assets include land, buildings, land and building improvements, equipment, and infrastructure assets (e.g., streets, sidewalks, traffic signals, and similar items). Although staff attempts to adhere to the definition of a capital asset, some items do not meet the definition but have been included, due to their uniqueness, such as special funding, timing, and multi-year nature.

The proposed CIP budget addresses many immediate needs during FY 2024/25 by using \$3.1 million of resources from Measure G, the City's voter-approved transactions and use tax, and \$16.2 million for the remaining planned five years. In order to meet the City's needs, it is imperative the City continue to develop strategies to allocate limited financial resources for capital projects. The CIP is adopted annually by the City Council to authorize and appropriate funding for specific projects within the first year of the six-year plan. Projects and financing sources listed in the CIP for years two through six (commonly called the "out years") are not authorized until the annual budget for those years is adopted by the City Council. The "out years" serve only as a guide for

future planning and are subject to further review and modification in subsequent years by the Council.

Annually, the City council adopts a six-year CIP to provide a standard by which to:

- prioritize the needs of the City based on the Strategic Plan;
- match, as appropriate, available funding to various needs;
- plan to meet the City’s capital needs over an extended period, as funding becomes available; and
- establish a strategy to secure funding for priority projects.

The CIP is organized as follows:

- Letter of Transmittal;
- CIP Summary by Category;
- CIP Summary by Department;
- CIP Summary by Fund;
- CIP Sections by category, including a detailed budget for each capital project; and
- CIP Index.

Potential investments totaling \$120.4 million are identified for the six-year period from July 1, 2024 to June 30, 2030. These investments range from deferred maintenance needs of existing roads and sidewalks (to be funded with SB 1 and Measure X bonds) to various improvements at the Airport. Each of the six years in the CIP reflects critical investments. FY 2024/25 CIP is balanced to forecasted revenues, ensuring adequate funding for the projects.

City Council Goals and Objectives

The City Council Strategic Plan with Goals and Objectives for 2022-25 were considered when determining which CIPs to propose and fund, and all projects in the CIP fulfill one or more of the strategic goals. The CIP includes projects that specifically address certain objectives, including funding and planning for the Annual Street Preventative Maintenance Program, projects addressing homelessness, sidewalk repairs, traffic signal installation and improvements, and park and fire station updates.

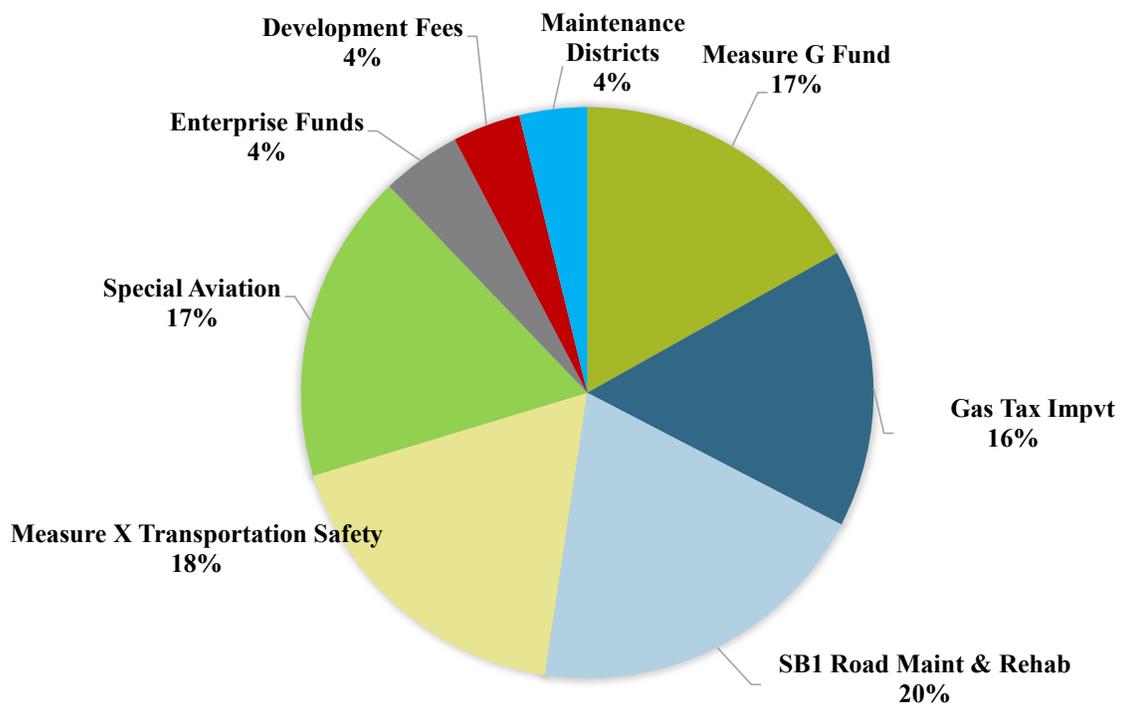

Fiscal Year 2024/25

Funding Sources	FY 24/25	FY 25/26	FY 26/27	FY 27/28	FY 28/29	FY 29/30	Total
Measure G	\$ 3,075,000	\$ 3,485,000	\$ 3,185,000	\$ 3,185,000	\$ 3,185,000	\$ 3,185,000	\$ 19,300,000
Other Funds	15,159,000	14,014,000	13,764,000	22,669,000	21,858,000	13,593,000	101,057,000
Total	\$ 18,234,000	\$ 17,499,000	\$ 16,949,000	\$ 25,854,000	\$ 25,043,000	\$ 16,778,000	\$ 120,357,000

The proposed FY 2024/25 CIP is \$18.2 million. Measure G funding continues to allow the City to make considerable investments in capital improvement projects. Proposed FY 2024/25 Measure G Fund projects total \$3.1 million. The six projects include the Permanent Homeless Shelter (SHARE Center), Chinatown Navigation Center Spring Shelter, Fire Station Alerting System

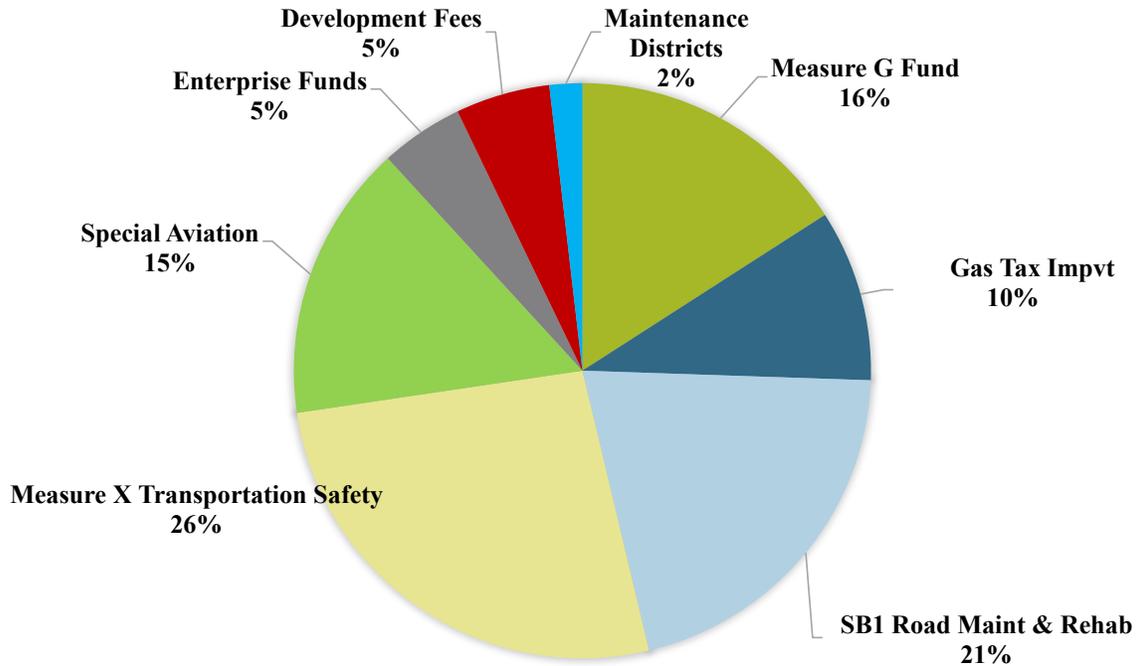

Update, Playground Improvements at Parks, Tree Planting, and a No Parking/Street Sweeping Signage Program.

The balance of the budget (\$15.2 million) is funded by assessment districts, development fees, gas taxes, Measure X Transportation Safety, and Investment (Measure X), SB 1 Road Maintenance and Rehabilitation (SB 1), special aviation funds, and City enterprise funds, all of which require those revenues to be used for the specific purposes listed in the Proposed CIP. For instance, the \$3.6 million in the SB 1 Road Maintenance & Rehabilitation projects may only be used for maintaining local roads and streets, and the \$2.9 million in Gas Tax projects may only be used for street-related projects.

Future Investments Needs

FY 25/26 through 29/30 Measure G planned projects total \$16.2 million. Given the current economic and fiscal condition, it will be necessary to limit any general funds budget savings (carry over) for capital projects that cannot be deferred. Measure G funding also addresses many community needs.

Restricted Funds

A combination of various resources are included in the Proposed FY 2024/25 CIP for the rehabilitation and development of infrastructure and street systems repair and improvements. Restricted funds for which uses are limited include those allocated or collected for/from enterprise operations, assessment and maintenance districts, Community Development Block Grants, development impact fees, local gasoline excise taxes, Measure X, SB 1, and Federal Aviation Administration grants. Examples of programs and projects funded, in whole or in part, from restricted funds include airport improvements, Boronda Road congestion relief, Federal Williams Road grant, various assessment district improvements, permit system and technology upgrades, pedestrian safety enhancements, and silt removal/storm channel repairs.

In November 2016, County taxpayers approved Measure X, a transactions and use tax of three-eighths of one percent ($3/8\%$), for a period of thirty years, which is to be used to improve safety on local roads and highways; repair potholes; maintain streets and roads; reduce traffic congestion; improve transportation for seniors, young people, and people with disabilities; and making walking and biking safer. Tax revenues will be allocated with sixty percent (60%) of funds dedicated to local road maintenance, pothole repairs and safety projects, and forty percent (40%) of funds dedicated to regional safety and mobility projects. The Transportation Agency for Monterey County (TAMC) and a Citizen Oversight Committee were established in addition to requiring annual independent audits. The proposed Capital Improvement Budget includes \$3.3 million (from Measure X) in qualified projects which include, among others, traffic calming improvements, sidewalk and drainage repairs, bridge maintenance, school safety enhancements, and streetlight installations. The CIP reflects \$30.2 million of Measure X projects over the six-year budget plan.

On March 29, 2017, Governor Jerry Brown announced a transportation funding agreement, known as SB 1 Road Maintenance and Rehabilitation. This ambitious plan will provide \$5.2 billion annually for California’s transportation infrastructure. The plan will be funded by several tax increases which include a twelve-cent-per-gallon increase to the gasoline excise tax, twenty-cent-per-gallon increase to the diesel excise tax, an additional vehicle registration tax called the “Transportation Improvement Fee” with rates based on the value of the motor vehicle, and \$100-dollar vehicle registration fee on zero-emission vehicles for models 2020 and later. The City estimates it will receive approximately \$4.1 million during FY 2024/25 from this tax. The proposed CIP budget includes three projects qualified to be funded by SB 1 funds and are striping and signing improvements, annual pavement and sidewalk maintenance, and street preventative maintenance.

Gas tax revenues represent a major funding source of capital improvement projects and are slightly higher than in previous years. Projects funded by gas tax funds in the proposed CIP budget total \$2.9 million.

American Rescue Plan Act (ARPA)

As noted above, ARPA CIP projects are ongoing, were previously approved, and require significant City staff time in order to complete. We have made real progress in spending the more than \$51.5 million in federal dollars provided by the Federal government.

These ARPA projects are at various stages of completion and include City Facility Improvements, Homelessness and Housing, Street/Sidewalk Repair, and Water/Sewer Infrastructure Upgrades. Below is a table summarizing unspent appropriations as of April 30, 2024 by department.

Department	Encumbered	Unspent / Unencumbered
Community Development	\$ 1,132,498	\$ 1,794,147
Fire	67,801	2,427,092
Public Works	8,282,827	10,008,626
Library & Community Services	3,328,569	2,764,922
Total	\$ 12,811,695	\$ 16,994,786

Capital Project Carryover from Prior Years

Ongoing CIP projects budgeted in prior years continue to be focused on by staff.

These projects are at various stages of completion and include the Alisal Vibrancy Plan, Boronda Rd. Congestion Relief, Sidewalk & Drainage Improvements, Street Preventative Maintenance, Recreation and Library, Public Safety Upgrades, and more. Below is a table summarizing unspent appropriations as of April 30, 2024 by department.

Department	Encumbered	Unspent / Unencumbered
Administration & Finance	\$ -	\$ 322,844
Community Development	2,688,299	9,952,354
Police	-	1,336,999
Fire	120,815	3,875,980
Public Works	13,679,886	64,497,628
Library & Community Services	9,061,518	14,945,675
Total	\$ 25,550,519	\$ 94,931,479

Conclusion

The six-year CIP provides a snapshot of community needs. The CIP does not provide a guarantee all projects will be accomplished as funding for capital projects is subject to economic conditions affecting General Fund, Measure E, and Measure G resources, developer resources, grant availability, and State budget actions.

The long-term service and economic development needs of the Salinas community are assessed from the perspective of required capital investments. The multi-year CIP provides an opportunity to do so and will continue to be a priority. Finally, the separate contributions to our CIP effort, through ARPA funding and prior-year budget CIP projects, continue to add to the significant local government CIP effort.

Sincerely,

Jim Pia

Jim Pia, Assistant City Manager, on behalf of
René Mendez, City Manager

Project # 9354
Project Name Southside Taxilane Rehabilitation

Type Improvement

Useful Life

Category Airport

Priority 1 High/Necessary

Start Date 07/01/23

Council District City-Wide

Completion Date 06/30/25

Total Project Cost: \$3,379,000

Description

The work and project (Design & Construction) are fundamentally a pavement rehabilitation project to remediate and maintain taxiway and taxilane pavement on the south side of the airport. The areas are specifically the taxilanes between City owned hangars – K, L, Q, O, R, S, and T. The project scope includes crack seal, slurry seal, full-depth reconstruction, milling, filling, and the re-marking of taxiways and taxilanes.

Justification

The project will be funded by FAA Grant 3-06-0206-36 (or another FAA-assigned number). The grant funds 90% of the project, with the Airport Enterprise Fund contributing up to a 10% match. If CalTrans State match grant funds are available, the Airport Enterprise matching formula will be reduced by 5%, with CalTrans matching 5% of the Federal Grant amount.

Project # 9093
Project Name Permit Center Technology Upgrade

Type Software

Useful Life

Category Community Development

Start Date 07/01/16

Council District City-Wide

Priority 1 High/Necessary

Completion Date On Going

Total Project Cost: \$4,504,852

Description
 A combination of Projects 9093, 9158 and 9357, this program creates the ability to capitalize on current technologies along with the upgrading and maintenance of hardware, software services (i.e., QLess, OAS, Projectdox and virtual inspections), and system performance to provide a higher level of customer service. Acquiring new software services, hardware and technology implementation allows for better methods to process and manage permits issued by various city departments. Includes other professional services, for live training, written guides, and videos geared towards both staff and the community, plus 25% regular pay for the Permit Center Coordinator dedicated to TRAKIT, staff training, and web page management.

Justification
 Improvements to the TRAKIT system, QLess, OAS, Projectdox and virtual inspections are essential for improved customer service and staff efficiencies. This is an appropriate use of the 5% technology fee collected for each building permit.

Project Name	Williams Rd UD

Type Improvement

Useful Life

Category Engineering & Transportation

Priority 1 High/Necessary

Start Date 07/01/17

Council District 2

Completion Date 06/30/26

Total Project Cost: \$2,910,281

Description
With the utility undergrounding of Williams Road (Bardin to Alisal), the roadway will need to be reconstructed to include underground and road improvements. TFO (#48) will fund median island improvements, which will occur in two phases.

Justification
The City has received the Safe Streets for All grant from the federal government. Undergrounding will need to occur before construction identified in the grant can proceed.

Category Engineering & Transportation

Start Date 07/01/18

Council District 1,2

Priority 2 Medium/Important

Completion Date 06/30/30

Total Project Cost: \$21,103,999

Description

Safety improvements from E. Alisal St. to Freedom Blvd. Improvements will include lane reduction, new bike lanes and three roundabouts at E. Alisal St., E Market St. and Freedom Blvd.

Justification

The City received \$16M from the federal government for the Safe Streets for All grant in December 2023. The grant will fund safety improvements and lane reduction along Williams Road. Funding is set aside for construction. The City will be funding design and state and federal environmental permitting.

Project Name Pedestrian Safety Improvements

Type Improvement

Useful Life

Category Engineering & Transportation

Start Date 07/01/18

Council District City-Wide

Priority 2 Medium/Important

Completion Date On Going

Total Project Cost: \$1,803,941

Description

This project provides for the annual replacement of traffic signs, in-pavement signs, markings and other minor improvements at sites throughout the City.

Justification

Enables the City to respond to school traffic safety concerns during the year. School Traffic Safety concerns is one category of traffic operations for which the City receives many requests each year. Most concerns are related to traffic congestion during drop off and pick-up hours due to the volume of cars during 2-3 short periods in a day. However, at times staff identifies improvements that will improve safety at schools. These improvements include new signing, flashing beacons, striping and other tools that is funded by this program.

School Safety Projects are aligned with the City's Vision Zero Policy.

Project Name Boronda Rd Congestion Relief

Type Improvement

Useful Life

Category Engineering & Transportation

Start Date 07/01/17

Council District 1,6

Priority 1 High/Necessary

Completion Date 06/30/30

Total Project Cost: \$23,665,027

Description
 Construct roundabouts at McKinnon, El Dorado, Natividad, and Independence Blvd. Construct 2 additional lanes; bike lanes; median island; overlay or rehab of existing lanes; landscaping and irrigation; farmers ditch; signing and stripping; NPDES features including widening of existing bridge over Gabilan Creek.

Justification
 The widening of Boronda Road is a part of the Mitigation Measures identified in the 2002 Salinas General Plan to mitigate traffic operational deficiencies throughout the City. Implementing this project will provide a level of service D or better along this corridor.

Project # 9607
Project Name Bicycle Lane Installations

Type Improvement

Useful Life

Category Engineering & Transportation

Start Date 07/01/18

Council District City-Wide

Priority 1 High/Necessary

Completion Date On Going

Total Project Cost: \$218,764

Description

Bikeway Plan adopted by Council in March 2002 calls for the installation of Bike Lane Routes at various locations. Improvements and facilities shall conform with support of said Bikeway Plan and the priorities set therein. The program is used to make improvements to the bicycle network and to leverage local funds to secure grants.

Justification

The Salinas General Plan has policies promoting other modes of travel. These improvements respond to sustainability of the transportation system and help address traffic congestion. Provision of bicycle facilities addresses safety concerns of those who travel by bicycle on City streets.

Priority 2 Medium/Important

Project #	9987
Project Name	Fire Station Alerting System Update

Start Date 07/01/15

Council District City-Wide

Completion Date 06/30/25

Total Project Cost: \$240,324

Description
While the previous CIP replaced the core alerting systems in all city fire stations, continued funding under this project replaces emergency notification lighting and speaker systems, and adds direct connection to the Monterey County Computer Aided Dispatch system (CAD) to complete the retrofit of the 45+ year old mission critical system. SFD is partnering with other allied fire jurisdictions to build upon this project to enhance overall dispatch capabilities, reduce dispatch workload and increase efficiency to shorten overall response times to better serve the community. An additional \$25,000 is needed for the new Monterey County CAD interface.

Justification
The project builds on the upgrades completed at fire station #1 in FY 08-09 and all other fire stations originally to be completed in FY 19-20, are still awaiting completion. Timely relay of critical dispatch information aids to reduce overall response times, reduce errors in dispatch and provide a layer of redundancy for critical dispatch communications systems. As cited in the 2019 Salinas Fire Department Standards of Cover and Community Risk Assessment, reducing the amount of time from the initiation of a 911 call to the time it takes fire crews to receive the dispatch is crucial to patient outcomes and minimizing fire loss and economic impacts to the community.

Priority 2 Medium/Important

Completion Date 06/30/26

Total Project Cost: \$336,371

Description
Ongoing expenses related to cost sharing for engineering and other services related to the Industrial Wastewater Collection and Conveyance System. Scope includes seeking new grant funding to augment efforts to capture runoff from South Salinas, conveyance to TP-1 and pumping to Monterey One Water for farming and other recycled water uses.

Justification
Professional services are necessary to provide grant writing, permitting and other efforts. This project supports a cooperative effort between the City and M1W which is funded by a \$10M Prop 1 grant while seeking an equal amount in the next round of funding.

Type Plan

Useful Life

Category Industrial Waste

Start Date 07/01/18

Council District City-Wide

Priority 3 Low/Desirable

Completion Date On Going

Total Project Cost: \$165,000

Description

Support efforts of the Salinas River Channel Stream Maintenance Program's River Management Unit Association, Inc. The City will become a landowner member of the Association and pay annual dues including a payment in arrears to cover 2017.

Justification

According to the September 4, 2018 MOU, the City agreed to support the Salinas River Channel Stream Maintenance Program as a landowner member affirming the common interest of the sustainable management of riverine lands in the Salinas Valley Groundwater Basin.

Type Improvement

Useful Life

Category Sanitary Sewer

Priority 1 High/Necessary

Start Date 07/01/03

Council District City-Wide

Completion Date On Going

Total Project Cost: \$1,003,551

Description

This project provides for Sanitary Sewer Collection System Management and Capacity, Management, Operations and Maintenance (SSMP). The purpose of this program is to comply with SWRCB, WDR requirements. Also provides for misc. equipment, computers, software, supplies and professional services.

Justification

It may be necessary to increase the existing sanitary sewer surcharge fee at some future date depending on the requirements placed on the City for Capacity, Management, Operations and Maintenance (CMOM). Sewer Bond (1998) proceeds have been spent.

Type Maintenance

Useful Life

Category Sanitary Sewer

Priority 2 Medium/Important

Start Date 07/01/95

Council District City-Wide

Completion Date On Going

Total Project Cost: \$2,565,317

Description

In order to stop serious deterioration in manholes and pipelines throughout the City, a liner will be installed in manholes each year to significantly reduce maintenance cost. This project also provides for the repair and/or replacement of sanitary sewer pipelines as necessary throughout the City.

Justification

This project will ensure that the City's sanitary Sewer system is well maintained.

Type Equipment

Useful Life

Category Sanitary Sewer

Priority 1 High/Necessary

Start Date 07/01/95

Council District City-Wide

Completion Date On Going

Total Project Cost: \$1,022,000

Description

This provides for replacements or upgrades to sanitary sewer lift stations including pump motors, motor controllers, alarm dialers, variable speed drives, electrical panels, buildings or enclosures, install permanent lift station bypasses and other appurtenances to include SCADA, MH monitors and flow meters.

Justification

This project is necessary to add resiliency to existing infrastructure and to reduce potential sewer overflows. Additionally, it is funded entirely by the Sewer Fund.

Project # 9175
Project Name Santa Rita Storm Channel

Type Storm Sewer

Useful Life

Category Storm Sewer (NPDES)

Start Date 05/01/19

Council District 5

Priority 2 Medium/Important

Completion Date On Going

Total Project Cost: \$370,000

Description

This project provides for the initial planning, design and permitting required for the repair of the storm water channel at Santa Rita Park. The storm water channel has been damaged by erosion due to multiple storm events in recent years. The repair will include the widening of the concrete portion of the channel and a paved access driveway for maintenance vehicles as well as a re-grading of the channel slopes to include hydro seeding. The total reconstruction will include approximately 1,300 linear feet of the channel. Project may include stream restoration components with grant funding.

Justification

Repairs and periodic maintenance of this stream is necessary for flood control. Initial design and permitting fees are to come from 2301 Development Fees Sewer and Storm. While project implementation funding will likely come from grants and/or FEMA reimbursement.

Project # 9735
Project Name Storm Sewer Infrastructure Improvements

Type Storm Sewer

Useful Life

Category Storm Sewer (NPDES)

Start Date 07/01/98

Council District City-Wide

Priority 2 Medium/Important

Completion Date On Going

Total Project Cost: \$2,834,056

Description

Storm Sewer Line in conjunction with 2004 CDM Storm Sewer Master Plan and other as-needed storm sewer line replacements.

Design and install larger inlets at various locations per Priority 2-6 Improvements recommendation from Table 5-1 of the 2004 Storm Sewer Master Plan. Also includes construction of storm main line and storm inlets on E. Laurel Drive from Highway 101 to Main Street.

Justification

This project is funded entirely through the Development Fees Fund for Storm Sewer.

Project Name Striping and Signing Improvements at City Streets

Type Roadways

Useful Life

Category Street Maintenance

Start Date 07/01/18

Council District City-Wide

Priority 1 High/Necessary

Completion Date On Going

Total Project Cost: \$3,465,065

Description

The striping of City streets has faded as street repair scheduled have been delayed. As a result, street center lines, crosswalks and other pavement markings that help contribute to street safety are in need of updating.

Justification

Provides funding to update street paving and signs at critical locations. This striping project is for those streets that need safety striping but are not part of pavement improvements.

Updating striping and signing supports the City Vision Zero Policy.

Type Maintenance

Useful Life

Category Street Maintenance

Priority 1 High/Necessary

Start Date 07/01/95

Council District City-Wide

Completion Date On Going

Total Project Cost: \$13,345,985

Description

The City has an ongoing pavement maintenance program to reseal City streets. The resurfacing of streets prolongs the life of the streets by decreasing deterioration. Maintenance staff will patch/repair and crack seal streets and repair sidewalks.

Justification

Maintenance provides patch and repair and sidewalk repairs throughout the City. The purpose is to mainly purchase materials.

Description

This CIP is for the routine upgrades to traffic signals and RRFBs, including controllers, cabinets, opticom, APS, iCCUs, video detection, leading pedestrian phases, LED beacons, and communication upgrades.

Justification

Traffic signal technology changes to improve safety and efficiency. This CIP allows necessary upgrades to existing signal system. This CIP includes the installation of new pedestrian countdowns, improved detection, battery back-up units, new cabinets to allow additional safety features at signalized intersections.

Project # 9120
Project Name Monte Bella Subdivision Improvements

Type Maintenance

Useful Life

Category Urban Forestry

Start Date 07/01/11

Council District 2

Priority 2 Medium/Important

Completion Date On Going

Total Project Cost: \$7,707,279

Description
 Rehabilitation of park landscaping & facilities including maintenance and renovation of parking lot areas, the park's irrigation system, future landscaping needs, tree trimming, tree replacement, and the various other park facilities. Periodic slurry seal and overlay. Maintenance of street lights and electrical service.

Justification
 Planned maintenance and repair within the Monte Bella subdivision (per Resolution no. 18392).

Project # 9775
Project Name Street Median Landscaping

Type Maintenance

Useful Life

Category Urban Forestry

Start Date 07/01/15

Council District City-Wide

Priority 2 Medium/Important

Completion Date On Going

Total Project Cost: \$490,000

Description
 Maintain public landscaping & irrigation at park strips and median islands, appurtenant water mains & irrigation systems/repairs, ornamental water, electric current/repair, cyclical tree pruning and debris removal. In the event of drought restriction, upgrades as needed.

Justification
 Providing funding will help in improvements for updating areas and help with unforeseen cost that arise due to outdated infrastructure.
